

ISO 14001-2004 (EMS) FAMILIRISATION COURSE

INTRODUCTION

This course is designed for personnel who are likely to be working in ISO 14001 certified shipping organizations. All personnel are key to implement organization's Environment policy. The knowledge about EMS will motivate them to follow the system.

OBJECTIVE

To provide knowledge and skills needed:

- a) So that all personnel in an organization are familiar with ISO 14001 standard.
- b) So that they help organization to achieve Environment Objectives.

FEATURES

More shipping related organizations are going for ISO 14001 certifications as required by ever expanding shipping Industry. With new conventions like Hong Kong Convention (ship recycling), MLC 2006 it has become Imperative for ship owners and managers to go for ISO 140001 certification.

This course provides knowledge and an insight into Environment Management System which will help the trainees on board in following the procedures as per Company's EMS Manual.
